Falling Down

The Deadlights

I'll be the king of calamity from my high-volt throne
I'll hold my court over everyone, all I see is all I own
And though death is but a kiss away it's all in me
From here down to where the sun meets with the sea

Oh life to me is just a game that we all play
And I'll wash away the sands of time, wash them away
And you, you are just a fleeting dream created by me
That goes on and on, as it's been so it shall be

We all fall down
though time slowly slips away
And the world is ours
So take it day by day

No, don't you shake your fist at me, you'll never know
Oh, what it's like to live so free, out of control
You should come across and follow me
It's a long way down, just wait and see
