Principle of Silver Lining

Larkin Poe

There is darkness upon us
Darkness is all around
There is no light there is no light
No light by my eyes to be found
But the darkness is of this forest
The Sun obscured by shady wood
Which god hath made, which god hath made
So even the darkness is good
Ohooo even the darkness is good
Keep on findinâ€™, That silver lining
Keep on waiting and keep on praying
Keep on findinâ€™, That silver lining
Keep on waiting and keep on praying

Cause there is darkness upon us
Darkness is all around
There is no light there is no light
No light by my eyes to be found
But the darkness is of this forest
The Sun obscured by shady wood
Which god hath made, which god hath made
So even the darkness is good
Ohooo
Keep on findinâ€™, That silver lining
Keep on waiting and keep on praying
Keep on findinâ€™, That silver lining
Keep on waiting and keep on praying

Cause there is darkness upon us
Darkness is all around
There is no light there is no light
No light by my eyes to be found
But the darkness is of this forest
The Sun obscured by shady wood
Which god hath made, which god hath made
So even the darkness is good

Keep on findinâ€™, That silver lining
Keep on waiting and keep on praying

Keep on findinâ€™, That silver lining
Keep on waiting and keep on praying

Cause there is darkness upon us
Darkness is all around
There is no light there is no light
