## Kangaroo Cry

## **Blue October**

Losing my control
Here it is the day I have to go
Just sit beside me

I cant let this show

How sick I feel to leave you so alone

God Im terrifiedWeve lost respect for decency

When one can turn our world into an ant pile

We run circles, no direction do I see

The dust has blinded you, the dust has blinded meI kissed her on the cheek

And then I waved goodbye

She had the saddest look Ive seen in years

A kangaroo cry

A warm pathetic ocean flow we have to live by

We have to live by

Because we have to liveChorus

And you choose to break our families

Tell me youve used all precautions known

And Ill stand beside the ones who stood alone

How long will we have to sing until you finally bring our sons, our daughters home?

Well let the prayers start healing, what times been stealingWe only want to feel as close as we can be

Use hands for holding on to your precious family

Just believe in all who shine

The light to help you see

Cause if I believe in you, will you believe in me?I kissed her on the cheek

And then I waved goodbye

She had the saddest look Ive seen in years

A kangaroo cry

A warm pathetic ocean flow we have to live by

We have to live by

Because we have to liveChorusKeep hanging on

Keep hanging on

Keep hanging on

Keep hanging on Well let the prayers start healing, when times been stealing

Start healing

Start healingChorus
