

# Icy

## Monica da Silva

They call me Icy  
They say I'm super cool  
They want to touch me  
To see if they'll turn cruel  
Some ask me questions  
Some just want lies  
Some hope the stone  
Is just my disguise

What am I doing here  
Wish I could disappear  
What am I doing here  
Please help me

Any other day  
Any other way  
I wouldn't care to give my heart away  
Any other day  
Any other way  
I wouldn't dare to give my heart away

Now trying to shock you  
But wonder why  
You're asking questions  
I'll give you lies  
If you want answers  
Would you believe  
I don't have a conscience  
I can deceive

What am I doing here  
Wish I could disappear  
What am I doing here  
Please help me

Any other day  
Any other way  
I wouldn't care to give my heart away  
Any other day  
Any other way

I wouldn't dare to give my heart away

Snakelike I'm slippery

Watch out for me

My poison's deadly best get out of reach

Snakelike I'm slithering watch out for me

Don't get in my way you might just see

If this were any other day

Any other way

I wouldn't care to give my heart away

Any other day

Any other way

I wouldn't dare to give my heart away

Any other day

Any other way

I wouldn't care to give my heart away

Any other day

Any other way

I wouldn't dare to give my heart away

They call me Icy

They say I'm super cool

They want to touch me

To see if they'll turn cruel
