

You're My Angel

Bonkers 12

You're my angel and you're my star
You're my light that is shinning in the night
I wanna touch you but you're so far
Just come along and I'll give you all my heart
You're my angel and you're my star
You're my light that is shinning in the night
I wanna touch you but you're so far
Just come along and I'll give you all my heart
You're my angel and you're my star
You're my light that is shinning in the night
I wanna touch you but you're so far
Just come along and I'll give you all my heart
So untoachable
Incredible that I would make you mine
So impossible
Seems to be that I knew one day you'd be mine
You're my angel and you're my star
You're my light that is shinning in the night
I wanna touch you but you're so far
Just come along and I'll give you all my heart
You're my angel and you're my star
You're my light that is shinning in the night
I wanna touch you but you're so far
Just come along and I'll give you all my heart
You're my angel and you're my star
You're my light that is shinning in the night
I wanna touch you but you're so far
Just come along and I'll give you all my heart
So untoachable
Incredible that I will make you mine
So impossible
Seems to be that I knew one day you'd be mine
You're my angel and you're my star
You're my light that is shinning in the night
I wanna touch you but you're so far
Just come along and I'll give you my heart
You're my angel and you're my star
You're my light that is shinning in the night

I wanna touch you but you're so far
Just come along and I'll give you all my heart
So untoachable
Incredible that I will make you mine
So impossible
Seems to be that I know you're mine
