

# Do Watcha

## McFly

### Verse 1:

Crash into the room  
Scared to turn the lights on  
like a ticking time bomb  
She's got a fuse  
I'm living in a rations  
from the ghost of passion  
What's a boy to do?  
I swore i'd never come back  
To this place of combat  
Tie me a noose  
We've been turning heart strings  
Music in the dark sings dark things

### Chorus:

Do watcha want  
Do watcha want to me  
Do watcha want  
Do watcha want to me  
Do watcha want  
Do watcha want to me  
Do watcha want  
Do watcha want to me

### Verse 2:

Frozen to the bone  
I cannot remember  
Much from that december  
Bruised and alone  
Caution through the rough tide  
Keep it on the inside this time

### Chorus

Do watcha want  
Do watcha want to me  
Do watcha want  
Do watcha want to me  
Do watcha want  
Do watcha want to me

Do watcha want  
Do watcha want to me

Verse 3:

Kick me to the curb rip a hole in my heart,  
And drag me through the dirt by my soul from a car  
Hug me in the night like a wolf in the dark  
But... watch out for that bitch called KARMA!

Chorus:

Do watcha want  
Do watcha want to me  
Do watcha want  
Do watcha want to me  
Do watcha want  
Do watcha want to me  
Do watcha want  
Do watcha want to me x3  
Do what you want  
Do what you want  
Just do what you want  
Just do what you want!
