Riverside Drive

The 'Verb

Oh it happens every now and then
Along the banks of the Potamus
When me and the boys gather some toys
And take care of a little bitSometimes it's crazy, sometimes it's hazy
Sometimes it takes all night
In need of perfection bring your protection
'Cause baby it'll feel so rightI don't remember the town
The town with the big bass soundWe're goin' down to Riverside Drive
We're goin' down to Riverside DriveShe's faster than the speed of sound
About the fastest thing I've known
She's been tryin' to make up her mind
Just who to let her take her homeWell sometimes I rode in, sometimes I'm flown in
Sometimes I feel I just don't know
In need of perfection, bring your protection
'Cause you never know what's in storeI don't remember the town
The town with the big bass soundWe're goin' down to Riverside Drive
We're goin' down to Riverside Drive
Hit the riverI tell ya what I'm gonna do
When the moon stares me in the eye
You're actin' real good like you know you should
And I'll give you a piece of pieWell sometimes I feel it, sometimes I steal it
Sometimes I can get it on
In need of perfection bring your protection
'Cause you're bringin' me downI don't remember the town
The town with the big bass soundWe're goin' down to Riverside Drive
We're goin' down to Riverside Drive
We're goin' down to Riverside Drive
We're goin' down to Riverside DriveTo Riverside Drive, to Riverside Drive
To Riverside Drive, to Riverside Drive
