

Somewhere I Know There Is Nothing

[Chad VanGalen](#)

Somewhere I know there's nothing
nothing, but unsailed seas
nothing, I know there's nothing at all
That'll bring you back to me So maybe you don't notice it
because you've gotten used to it
or because you were born into it
just why you should be scared of it
Somewhere I know you're somewhere
sailing, the unsailed sea
nothing, I know there's nothing at all
That can bring you back to me So maybe you don't notice it
because you've gotten used to it
or because you were born into it
just why you should be scared of it
Somewhere, I know you're somewhere
