

The Letter (feat. Esty)

Tyga

(Bridge)

In the haze we lose

Can't just have it all

In the haze we fall

Coulda had it all

In the haze we lose

Can't just have it all

In the haze we lose

We coulda had it all(Verse)

Be honest, I know you now

You look to see

Stop and wait

And really it don't matter

I know you do (I know you do)

You don't understand, there's a time and place

I'm gon let you know, now listen

I don't you to, you don't want to say it

Tell me what it is you feel

Don't be shy

(Don't be shy)(Chorus)

Testin you like you testin me

Testin you while you testin me

Testin you like you testin me

Testin you like you testin me

And I know(Verse)

Uh, watching the stars

On a yellow brick road like the Wizard of Oz

Ain't no workin titles for this little thing of ours

I tell you the game like I'm Robert Steiner

I put roses on my neck, rose petal and stars

I kiss you down low but I let you decide

I get behind you like you're making dirty wind

Get you a glass of muscato, that's yo favorite wine

And I... know

Can't hold yo prop cuz it's yours

Like Versace models you be giftin leather

You my bread and butter, let's toast

And I... hope

Like chef is fairy we can fly canaries

Obey my presence, you are a blessing
I am a reverend so start confessing(Bridge)

In the haze we lose
Can't just have it all
In the haze we fall
Coulda had it all
In the haze we lose
Can't just have it all
In the haze we lose
We coulda had it all(Chorus)
Testin you like you testin me
Testin you while you testin me
Testin you like you testin me
Testin you like you testin me
And I know
