

# Wide Open Space

[Mansun](#)

I'm in a wide open space, I'm standing  
I'm all alone and staring into space  
It's always quiet through my ceiling  
The roof comes in and crashes in a daze I'm in a wide open space, it's freezing  
You'll never get to heaven with a smile on your face from me  
I'm in a wide open space, I'm staring  
There's something quite bizarre I cannot see I'm on the top of a hill, I'm lonely  
There's someone here to shout to miles away  
I could be back in my house, for I care  
They do not hear me, it's the same old case
