Approach

Ali Abedi & EeL

My whole approach is to give you back to yourself
My whole work is just to make doors and windows in you
You've been stolen
You've been covered
Conditioned in every possible way
They have closed all the doors of approach to yourself

My whole approach is to give you back to yourself
My whole work is just to make doors and windows in you
And if I can withdraw all the walls
And leave you just an open sky
