

# Back for More

## A\*Teens

I know I might seem weird  
One day I'm around the next I disappear  
This is a crazy act

But I won't break up, kiss and make up that's a fact'Cause always, ever, after and onWhen you think the party's  
over look over your shoulder

I'm at your door, coming back for more  
Dancing in the moonlight, 'til the break of day like we did before  
We'll be coming back for moreWe're on a one-way ride  
And all I need is someone like you by my side

You saw the movie too

We'll ride into the sunset like they always doFor all days, all nights, hours I'm goneWhen you think the party's  
over look over your shoulder

I'm at your door, coming back for more  
Dancing in the moonlight, 'til the break of day like we did before  
We'll be coming back for moreIf I'm still number one

The one your looking for  
I won't be gone for long

Now I'll be back for moreWhen you think the party's over  
Just look over your shoulder

We'll be coming back for moreWhen you think the party's over look over your shoulder  
I'm at your door, coming back for more

Dancing in the moonlight, 'til the break of day like we did before  
We'll be coming back for moreWhen you think the party's over look over your shoulder  
We'll be coming back for more  
Dancing in the moonlight, 'til the break of day like we did before  
We'll be coming back for more
