

Immunize

Pendulum

We go forth and multiply
Nerves are shaking from the decadent light
We go forth and multiply
Nerves are shaking from the decadent light We'll be a little slow when you're going to die
And when you're getting low we'll raise the tide We'll be a little slow when you're going to die
We go forth and multiply
Nerves are shaking from the decadent light We'll be a little slow when you're going to die
And when you're getting low we'll raise the tide We'll be a little slow when you're going to die
We go forth and multiply
Let's us shake it from the decadent light We go forth and multiply
We go forth and multiply
We go forth and multiply We'll be a little slow when you're going to die
And when you're getting low we'll raise the tide We'll be a little slow when you're going to die
We go forth and multiply
Nerves are shaking from the decadent light
