

Satanachrist

Venom

I preach the ways of Satan
Answer to his calls
In my shrine, my avernus
I translate manuscripts
On ancient Latin scrolls
I see the gates of Hell
Tortured souls do dwell
Guarded well by ChronozonSatanachrist
SatanachistI mount the virgin Venus
Plague the blackened seas
I am the souls destructor
Marching without fear
In coral exctasy
The saraband of death
The night is filled with souls
Will always follow meSatanachrist
SatanachistAnd chew your flesh from bone
I bear the evil eye
Possess the unbidden
I'll bring your dead alive
I stalk through life and death
Beware the human race
With Gorgon for my gazeI breath the immortal pain
Satanachist
Satanachist
