

Closest (Look Out)

[Matt Pond PA](#)

Advisory - the following lyrics contain explicit language:

Look out, there is danger
Even in the simple word, hello
Hiding in the reeds, you would not believe
Where darkness goes Discovery is the warmth of eyes
That leaves us lying in defeat
From the tallest trees, its still too hard to see
Where darkness goes Tell me, tell me theres going to be time left
Tell me, stupid, dont have to worry
Green eyes, green comes with reflection
Blankets, do so well to protect us Its made up, the requests
Have all been effected
Distortion and a hiss
That is not undetected The greenness, greenness
It comes from a window
Picture or a movie
I've never been into Flashlights try to pull the color
From the corners, we dont know
When light is not implied
Theres no way to decide
Whats right or wrong Tell me, tell me theres time left
Its not worth it, worth it to worry
Green eyes, the green from reflection
And the blankets, there to protect us Its been made up, the requests
Are effected with distortion
Hiss is undetected And the greenness
It comes from a
Picture or a movie
Never been into And you go in
Go 'cause you have to
With the lights dim
Credits start rolling And the action though
Its before us

We look sideways and act
Like its boring tonightMade up
Made up
Distortion
Movies
The movieFrom the tallest trees
Its still too hard to see
Where darkness goes
