

I've Got Friends

Manchester Orchestra

Dirty in the ground is what I need
I got another one to tell you
and another one to make you believe
pity in the grass tried to be
the one you needed when I told you
that you wanted something bigger than me I've got friends in all the right places
I know what they want
and I know they don't want me to stay
I said that I've got friends in all the right places
I know what they want
and I know they don't want me to stay 'cause you are not alive
when I need you
I need it quickly
in case you never know I can't play where I'm not supposed to anyway dirt in the ground is what I see
I need another reason why
I need another reason, tell me to breathe
the dirtier the sound, the best I breathe
I tried to do it all for you
it didn't do anything for me 'cause I've got friends in all the right places
I know what they want
and I know they don't want me to stay
I've got friends in all the right places
I know what they want
and I know they don't want me to stay and you and I will find
that when I need you
I need it quickly
in fact, you'll never know I've got friends in all the right places
I know what they want
and I know they don't want me to stay
I said that I've got friends in all the right places
I know what they want
and I know they don't want me to stay.
