All my loves are hidden in pieces
All my loves are within a wild night
All my loves are hidden in pieces
All my loves are within a wild nightAll my loves are hidden in pieces
All my loves are within a wild night
All my loves are hidden in pieces
All my loves are within a wild nightIf they are still up high
We'll throw them to the sea
If they are still on high
We'll throw them to the seaIf they are still up high
We'll throw them to the sea
Watch the murder of the wilds
To the music of the deep
Wild night, wild nightAll my loves are hidden in pieces
All my loves are within a wild night
All my loves are hidden in pieces
All my loves are within a wild nightIf they are still up high
We'll throw them to the sea
If they are still on high
We'll throw them to the seaIf they are still up high
We'll throw them to the sea
Watch the murder of the wilds
To the music of the deep
Wild night, wild night
Within a wild nightWild night, wild night
Wild night, wild night
Wild night, wild night
Wild night, wild night
Wild night, wild night
