

# I Know Places

[Lykke Li](#)

I know places we can go, babe  
I know places we can go, babe  
The high won't fail here, babe  
No, the high won't hurt here, babe I know places we can go, babe  
I know places we can go, babe  
Where the highs won't bring you down, babe  
No, the highs won't hurt you there, babe Don't ask me when but ask me why  
Don't ask me how but ask me where  
There is a road, there is a way  
There is a place, there is a place I know places we can go babe  
Comin' home, come unfold babe  
And the high won't fade here, babe  
No, the high won't hurt here, babe So come lay and wait  
Now won't you lay and wait  
Wait on me Um I know places we can go babe  
Comin' home come, unfold babe  
I know places we can go babe  
Comin' home, come unfold babe
