

Love You Down

Silk

Let me love you down
Love you down
Love you down Scene around and around tonight
You're feeling so hot
Trying to think of ways
How can I get you here to my spot
Oh what am I gonna do
'Cause I'm still wanting you
That night we spent was forever
And baby let me love you down
All the way down
Oh, and that's what I say
I'll be damned if I sit here alone
And you are killin' me softly
With your sexy sex appeal girl - Let me love you down, baby
Early morn' 'till the break of dawn
I want to hold you, kiss ya
Squeeze ya, touch you
Love you down Let me love you down, baby
Early morn' 'till the break of dawn
I want to hold ya kiss ya
Squeeze ya, touch you
Love you down
Said Come on in, sit on down
Let me just relax you
Blazin' to the sexy sounds
Tell me what you want to do
Can I get a kiss
Can I get a hug (Please)
Damn do I have to get down on my knees girl
And you know and I know and we know
Where we want to go so
Oh, lets get down to business
'Cause I've been waiting too long
It's gotta go down now with you Repeat 1
Oh, let me love you slow
Oh, let me stroke gently
You know I know
Oh you know I want to

You know what I need
I'll be loving you downAd lib until fade
