Never Heal Myself

Cults

Tell me all the things that you thought weren't right about me and my life
Tell me there's a way that i can shake this cloud and stand near to your light
I never wanted anyone to say that i have hidden myself in disguise
Please don't leave me lonely tell me all the ways to make myself right in your eyesBut i can never heal myself enough for
Never heal myself enough for youTell me all the things that you thought weren't right about me and my life
Tell me there's a way that i can shake this frown and see clear through your sight
I never wanted anyone to say that i had let myself cry by your side
Please don't leave me lonely tell me all the ways to make myself right in your eyesBut i can never heal myself enough for
Never heal myself enough
No, I can never heal myself enough for you
