

Imagination

Alyssa Bonagura

From the west coast to no where
To the edge of the sun
Past the far away and inbetween
The everything you've ever seen and ever was

Oh you'll know where to find me
Close your eyes here I am
Just the way you remember me
The way it was the way it all began

Is it all lost is it all gone
Tell me baby where we went wrong
Is it to late or is there a way we could save this

Ohhhhh
Is it, is it
My imagination
Is it, is it
My imagination
Is it, is it
My imagination

Didnt we waltz in the wilderness
Make love in a ring
Falling all over and over and over again
Or was it all in my head

Is it all lost is it all gone
Tell me baby where we went wrong
Is it to late or is there a way we could save this

Ohhhhh
Is it, is it
My imagination
Is it, is it
My imagination
Is it, is it
My imagination

I wanna see you again

In this dream you can wake me again

Is it all lost

Tell me baby where we went wrong

Ohhh

Is it all lost is it all gone

Tell me baby where we went wrong

Is it to late or is there a way we could save this

Is it, is it

My imagination

Is it, is it

My imagination

Is it, is it

My imagination

Is it, was it

My imagination

Is it, was it

My imagination
