The Last Dance

Clare Maguire

Today I feel the mood
And I don't feel like talking
I wasn't ready to lose you
You're the first man to move me, yeah
You help me feel alive
Got me up from 9 to 5
I could get through those days
With you on my mind, yeah
Gotta try and move on
But I promise you
I will kiss your crown
When life takes me down
I saved my last dance for you
My friend
I saved my last dance for you
My friend
Another face in the crowd
Oh, people love to move now
I just can't feel the beat
'Cause my heart's fallen out, yeah
Gotta try and move on
But I promise you
I will kiss your crown
When life takes me down
I saved my last dance for you
My friend
I saved my last dance for you
My friend
I got my life in my hands
And your love in my heart
I got my life in my hands
And your love in my heart
I saved my last dance for you
My friend
And it seems I can live my life
With you as my rhythm, yeah
And I know I'll find my feet
After I'm beaming, yeah, yeah
I saved my last dance for you

My friend
I saved my last dance for you
My friend
I got my life in my hands
And your love in my heart
I got my life in my hands
And your love in my heart
I saved my last dance for you
My friend
I got my life in my hands
And your love in my heart
I got my life in my hands
And your love in my heart
I got my life in my hands
And your love in my heart
I got my life in my hands
And your love in my heart
