

Marmalade

The Geraldine Fibbers

Marmalade, sunny days, drugs make me wanna sit next to you.

Doctors floating to and fro... silverfish is on the go.

I'm in rapture, I'm in deep, all I want to do is sleep.

The sky enclose me, I'm going down.

Marmalade marmalade, don't try to find me, don't try to pull me out, my marmalade.

Marmalade marmalade, make me so happy, make me forget my name, my marmalade.

My marmalade...

Duck pond memories pass me by, paddle boats and cherry pie.

Wet eyelashes look inside... droplets gather in your eye.

Day and hours melt away, Dolly says I'm here to stay.

It's hard to care, the mist comes down.

Marmalade marmalade,

Tell me a story,

Help me forget

I'm gone,

My marmalade

Marmalade marmalade,

Hide me somewhere,

Carry me somewhere,

My marmalade.

Marmalade marmalade,

You're the devil,

You're half empty now,

My marmalade.

My marmalade...
