Orange crush

My Big Wheel

You were so sweet, swept off my feet
Thought it was fade, it was just fake
Synthetic lust'Cause some of this wrapped in a kiss
Set going mess, I must express
You're like orange crushI was a fool but now I see
Your perfect love was make-believe
And that your heart is emptyI don't like too much of this sugar rush
Oh, oh, no more orange crush
I don't like too much, won't you shut up
Oh, oh, no more orange crushYou made me sick, had better kicks
You're flowing still, I had to bail
On the orange crushI was a fool but now I see
Your perfect love was make-believe
And now the bottle's emptyI don't like too much of this sugar rush
Oh, oh, no more orange crush
I don't like too much, won't you shut up
Oh, oh, no more orange crushOh, oh, oh, oh, no more orange crush
Oh, oh, oh, oh, no more orangeThe orange sky has turned into a deeper blue
I can't believe that I fell down into youI don't like too much of this sugar rush
Oh, oh, no more orange crush
I don't like too much, won't you shut up
Oh, oh, no more orange crushI don't like too much of this sugar rush
I don't like too much of this sugar rush
Oh, oh, no more orange crush
