

# Orange crush

## My Big Wheel

You were so sweet, swept off my feet  
Thought it was fake, it was just fake  
Synthetic lust 'Cause some of this wrapped in a kiss  
Set going mess, I must express  
You're like orange crush I was a fool but now I see  
Your perfect love was make-believe  
And that your heart is empty I don't like too much of this sugar rush  
Oh, oh, no more orange crush  
I don't like too much, won't you shut up  
Oh, oh, no more orange crush You made me sick, had better kicks  
You're flowing still, I had to bail  
On the orange crush I was a fool but now I see  
Your perfect love was make-believe  
And now the bottle's empty I don't like too much of this sugar rush  
Oh, oh, no more orange crush  
I don't like too much, won't you shut up  
Oh, oh, no more orange crush Oh, oh, oh, oh, no more orange crush  
Oh, oh, oh, oh, no more orange The orange sky has turned into a deeper blue  
I can't believe that I fell down into you I don't like too much of this sugar rush  
Oh, oh, no more orange crush  
I don't like too much, won't you shut up  
Oh, oh, no more orange crush I don't like too much of this sugar rush  
I don't like too much of this sugar rush  
Oh, oh, no more orange crush
