

# Round Two

## Waterdown

Whenever back and forward again  
I feel like them  
Whenever back and forward again  
I feel like them now I got it right here  
Round two and knockout  
I got it right here  
Got it right here Don't you know  
I got it right here  
Don't you know I got to, I need to  
Someone show me where it begins  
I got to, I need to  
Someone show me where it begins I got it right here  
Round two and knockout  
I got it right here  
Got it right here Don't you know  
I got it right here  
Don't you know  
I got it right here  
Don't you know  
Yes, I do think anything will  
Always be that way Got to know I got it right here  
Round two and knockout  
I got it right here  
Got it right here Don't you know  
I got it right here  
Don't you know  
I got it right here  
Don't you know  
Yes, I do think anything will  
Always be that way, no
