Cool on Fire

Daniel Johns

It was getting a little hard
Not to think about each other
It was getting a little cold
Trying to act like I never need no one
It was getting a little harder
Trying to keep it undercover
But I was feeling insecure
Trying to get your body close to mine

Itâ€™s getting a little hard
Not to talk to one another
But Iâ€™m sick of playing it cool
In the end everybody needs someone
Itâ€™s getting a little late
Wanna tell you something honest
When I'm feeling insecure
Wanna feel your body close to mine

I get higher
You keep getting better
And Iâ€™m trying
But I can't see nothing else
'Cause together
Nothing matters
Weâ€™re on fire
Cool on fire

I got no chance to keep my cool baby
Iâ€™m caught on fire

It was getting a little hard
Not to think about each other
It was getting a little cold
Trying to act like I never need no one
It was getting a little harder
Trying to keep it undercover
But I was feeling insecure
Trying to get your body close to mine

I get higher

You keep getting better
And Iâ€™m trying
But I can't see nothing else
'Cause together
Nothing matters
Weâ€™re on fire
Cool on fire

I got no chance to keep my cool baby
Iâ€™m caught on fire
We got a chance to rule the world baby
We're cool on fire

I get higher
You keep getting better
And Iâ€™m trying
But I can't see nothing else
'Cause together
Nothing matters
Weâ€™re on fire
Cool on fire

Weâ€™re on fire
Weâ€™re on fire
Cool on fire
