Baby You're The One

Us5

It's so hard to believe it
Can't believe that I found you girl
All that I ever wanted
Is in you before my eyes
I know that you are my angel
Heaven sent from the Lord above
I simply can't believe it
I'll be all you ever need...
Baby you're the one that I need
Everything I want you to be
Girl, it's only you that I adore
All I need and so much more
Baby you're the one that I need
Everything I want because it's you I'm begging for
I call your name
Girl my heart is yours for sure
Baby you're the one
Here's my heart you can keep it
You're the only one in my world
Girl I hope you can feel it
That I want you by my side
I feel just like I'm in heaven
And I hope you can feel it too
It's hard to just believe it
But I swear these words are true
When I see you girl I swear that I
Want you always in my life
You're the key to find my way to paradise
I've been longing for this moment
Ever since I've seen your smile
I would do most anything to have you
Right here by my side
Baby you're the one that I need

Everything I want you to be
Girl, it's only you that I adore
All I need and so much more
Baby you're the one that I need
Everything I want because it's you I'm begging for

I call your name
Girl my heart is yours for sure
Baby you're the one
When I see you girl I swear that I
Want you always in my life
You're the key to find
My way to paradise
I've been longing for this moment
Ever since I've seen your smile
I would do most anything to have you
Right here by my side
Baby you're the one that I need
Everything I want you to be
Girl, it's only you that I adore
All I need and so much more
Baby you're the one that I need
Everything I want because it's you I'm begging for
I call your name,
Girl my heart is yours for sure
Baby you're the one that I need
Everything I want you to be
Girl, it's only you that I adore
All I need and so much more
Baby you're the one that I need
Everything I want because it's you I'm begging for
I call your name
Girl my heart is yours for sure
Baby you're the one
Baby, you're the one
