

# Nights + Weekends

## Poppy Brothers

ive gotta get your number  
youve got the mark of the beat  
was it gravitation momentum carrying me  
hi whats your name  
youve got me feeling like im on fire  
moth to the flame  
heart of glass break in case of liaron nights and weekends  
in love or just friends  
tonight you ask who are you  
but tomorrow youll be saying i doi want to be in your plans  
i want to speak freely but my lips are in quicksand  
eyes like aquamarines  
sterling silver tongue and im stuttering  
hi whats your name  
ill work it out like long division  
fanning the flame  
getting hot like nuclear fission
