

Revolver

Lukas Rossi

see the ones they lie on the street
they barley got money to eat
but you'd rather ignore it
like the last one before
you say that will never be me
a mother knew on the street she grew
with another but the babies crying
but the world doesn't know it
she never would show it
she can no longer believe

(chorus)

we got to get up get up
get up when were down
everyone needs to fight for there crown
sometimes you scream no one hears the sound
revolver
revolver
wake up wake up the clocks ticking down
we already know this now
everyone cry's everyone lies
everyone's sad somehow

johnny brought a gun to school
in classroom he opened fire
with this look in his eye
he wanted to cry
just look what your friends made you do
and the ones
with the needle
in there arm
its coursing through your veins
there are some mistakes we can not erase
there gonna kill us all

(chorus)

we got to get up get up
get up when were down
everyone needs to fight for there crown

sometimes you scream no one hears the sound

revolver

revolver

wake up wake up the clocks ticking down

we already know this now

everyone cry's everyone lies

everyone's sad somehow

i feel angels watching over me

i can feel them in my heart

there are angels watching over you

cant you feel them in your heart

can you save us from ourselves

(chorus)

we got to get up get up

get up when were down

everyone needs to fight for there crown

sometimes you scream no one hears the sound

revolver

revolver

wake up wake up the clocks ticking down

we already know this now everyone cry's everyone lies

everyone's sad somehow

get up

get up

wake up

wake up

sometimes you scream no one hears the sound

revolver

revolver

wake up wake up the clocks ticking down
