

No One

Fear Factory

Violence in my head
Like a thorn that pierced my skin
Spilling strength on the floor where I stand
It surrounds me, controls me
Shows weakness inside me
Surrounds me, controls me
Shows weakness inside me
They've tried to kill me
But they won't succeed
No one
No one
No one can deny
Sadness in my heart
Like a storm that ripped apart
All the fragments of what was happiness
It takes over, and numbs me
Shows the fear inside me
Takes over, and numbs me
Shows the fear inside me
They've tried to kill me
But they won't succeed
No one
No one
No one can deny
No one
No one
No one can deny
(Take one)
Take one, take one more shot
One more shot at me
Take one, take one more shot
One more shot at me
And believe
And believe
Take one, take one more shot
One more shot at me
Take one, take one more shot
One more shot at me
And believe

And believe
Takes over and numbs me
Shows the fear inside me
Inside
Inside
Inside my head
No one
No one
No one can deny
No one
No one
No one can deny
No one
No one
No one
