## No One

## **Fear Factory**

Violence in my head
Like a thorn that pierced my skin
Spilling strength on the floor where I stand
It surrounds me, controls me
Shows weakness inside me
Surrounds me, controls me
Shows weakness inside me
They've tried to kill me
But they won't succeed
No one

No one

No one can deny

Sadness in my heart

Like a storm that ripped apart

All the fragments of what was happiness

It takes over, and numbs me

Shows the fear inside me

Takes over, and numbs me

Shows the fear inside me

They've tried to kill me

But they won't succeed

No one

No one

No one can deny

No one

No one

No one can deny

(Take one)

Take one, take one more shot

One more shot at me

Take one, take one more shot

One more shot at me

And believe

And believe

Take one, take one more shot

One more shot at me

Take one, take one more shot

One more shot at me

And believe

And believe
Takes over and numbs me
Shows the fear inside me

Inside

Inside

Inside my head

No one

No one

No one can deny

No one

No one

No one can deny

No one

No one

No one

...
