

# Radio Bomb

## Matthew Good Band

Just slide the hood, it's nothing much  
You be Starsky and I'll be Hutch  
They'll never find out where we'll go  
We can forward our calls illegally to Mexico You can be the sleeping cure  
And I'll memorize subversive literature  
From our secret mountain base  
We can broadcast all over the place Radio bomb  
The sound of freedom Radio bomb  
The sound of freedom We can launch a satellite  
So you can hear the day in the middle of the night  
And the R L I and the F C C  
They'll be driving around in their little undercover RV's And they'll call us terrorists  
They'll try to stop us in the name of government interest  
From our secret underwater base  
We are coming to you all over the place Radio bomb  
The sound of freedom Radio bomb  
The sound of freedom Radio bomb  
The sound of freedom
