

# Broken Compass

## Sleepwave

I've become distorted lines  
From above I blur in time  
    Let me fade away  
I could drown right here tonight  
    Breathe it in I'll be alright  
    Getting closer now  
Like a wave I washed away  
Left behind what I didn't say  
    Turn your back again  
    Just turn your back again  
    This is impossible  
Feels like we're lost without a hand  
    It's so hard for us to navigate  
    This is impossible  
I fear we come and go alone  
    So hard just to communicate  
It's overWatch me eat myself alive  
Stood right here a thousand times  
    Couldn't help me if you tried  
    If I'm diving into you  
    I'll be the desperate  
    I'll be abused  
    Just don't count me out  
They're not gonna change me  
    They're not gonna save me  
    I'll just save myself  
    I'll just save my fucking self  
    Don't save me  
    I'll save my fucking self
