

Closed For Business

Mansun

Roll on up and queue in line
All you need is here
Absurdity in what you see
Can't match the state you're in All things are flawed to me
Stick with the things that you know
Buy what you want from me
Hope was the one thing I sold Say what you can't say, I'll never know
Don't wanna know, what you really sold
Say what you can't say, I'll never know
Don't wanna know, what you really sold
It's been a bad day
Closed for business, I'm going home Tasteless gas that comes in cans
Why should I be stoned
For selling things to heal your sins?
And make your sorrows go All things are flawed to me
Stick with the rules that you know
Buy what you want from me
Hope was the one thing I sold Say what you can't say, I'll never know
Don't wanna know, what you really sold
Say what you can't say, I'll never know
Don't wanna know, what you really sold Say what you can't say, what you really sold
Say what you can't say, what you really sold
Say what you can't say, what you really sold
Say what you can't say, what you really sold It's been a bad day
Closed for business, I'm going home
