Big Shot

Jason Meadows

Heaven knows I aint no genious
ive been further down than broke
ask anyone whos ever seen us
and you would think
i just struck gold (no chord)(chorus)she makes me feel like a big shot
she dont care about what im not
she knows im a simple man
by the iddy biddy diamond on her hand
she could have had a big rock
cuz that woman is red hot
she never gives it a second thought
she makes me feel like a big shotive never got so much attention
everybody is my friend
they dont ever fail to mention
that it was good to see her face again(chorus)how'd i ever get so lucky
every dog must have its day
if thats true than im her puppy
she wouldnt have it
any other way(chorus)she makes me feel like a big shot
she makes me feel like a big shot
she makes me feel like a big shot
