Savannah

LP

The mountain was on fire
And the southern night was dark
As I drove into town
I could almost hear your heartAshes in the air
And it was an episode
Found my way to your house
I never felt my heart so loudSavannah
Will you let me in
I know I let you down
Can you believe againSavannah
I come to this place
To this sacred ground
Just to see your faceAll of my life I've loved you
Just hold me in your life
Ooooo
Savannah
Give me another dayI made my mistakes
I know I stayed away too long
I miss your midnight kiss
And the sweetness of your songI'm only right for you
No one has ever brought me there
I know I wasn't true
I can't escape it anywaySavannah
Will you let me in
I know I let you down
Can you believe againSavannah
I come to this place
To this sacred ground
Just to see your faceAll of my life I've loved you
Just hold me in your life
Ooooo
Savannah
Give me another dayI couldn't believe that I was calling your name (x2)Savannah
Will you let me in
I know I let you down
Can you believe againSavannah
I come to this place
To this sacred ground
Just to see your faceAll of my life I've loved you

Just hold me in your life
Ooooo
Savannah
Give me another day
