Here I Stand

Sonny Rey

Say Ive been away for way too long
But now im on my way and Im almost home
And I know I did wrong, yeaaa
But Im better now Im strongYea been going wild, but Im back for good
I was trying to live a life that I misunderstood
I couldnt seem to stay away from the dark of things
But I emerged from the dirt and I was sparkling
Like a diamond ring, man I swear its my time
Imma show the world that I have been on my gride
Shine til the death of me,
I give my all til there aint nothing left of meI put in my life Im never giving up
And I will never stop till I give enough
The world is on my shoulders and I lift it up
Say I lift it up, yea I just lift it upSay Ive been away for way too long, yeaaa
And now Im on my way and Im almost home
And I know that I did wrong
But Im better now Im strong
Here I am, I am just a man
Here I stand, here i stand, here I stand
Im doing everything I can
To show the world who I am
Here I stand, here I stand, here I standYea I've been going wild, but here I stand
I returned a better man,
Swear my whole life is like a trafic jam
And I just look around like I am going nowhere, damn
But that was then and this is now,
How we turned a mac but you cant shut me down
Do you hear that sound, yea thats me blowing up
Whole new rise to the top never slowing upI put in my life Im never giving up
And I will never stop till I give enough
The world is on my shoulders and I lift it up
Say I lift it up, yea I just lift it upSay Ive been away for way too long, yeaaa
And now Im on my way and Im almost home
And I know that I did wrong, yeaaa
But Im better now Im strong
Here I am, I am just a man
Here I stand, here i stand, here I stand, yeaaa
Im doing everything I can
To show the world who I am

Here I stand, here I stand, here standIm doing everything I can to show the world who I am
Here i stand, here i stand, here I stand
Im doing evetrything I can to show the world who I am
Here I stand, here I standHere I am, I am just a man
Here I stand, here I stand, here I stand
Im doing everything I can to show the world who I am
Here I stand, here I stand, here I stand
