

# Go Hard (feat. Tedashii)

[Lecrae](#)

Go hard or go home  
Lord use me up Lord kill me if I don't preach the gospel  
I'm still in my 20's- but I'll die if I got to  
Already dead- so forget my flesh  
I done been crossed over see the full court press  
I'm a full court mess if the lord don't use me Running from my trials thinkin everythings groovy  
If the cross don't move me then I don't wanna breath no mo If I ain't seeing christ potna I don't wanna see no mo  
Rep every day withouth worrying about bruising  
I been to china mayne I seen some real persecution  
If u didn't know em would ya life look the same  
Can they tell you value jesus by the way you rep his name?  
Man what's the point of living if I'm living for myself  
Lord empty out my life before I put you on the shelf so for  
God I got hard I don't wanna die tonight  
It's too many people living who ain't heard about my christ  
Go hard or go home  
Lord use me up Went to asia had to duck and hide-for sharin my faith  
They tell me water it down when I get back to states  
They say tone the music down you might sell a lot a records  
But it's people out here dying and none of em heard the message  
Took my wifey on mission trip central america  
Shared her testimony 40 people stood and stared at her  
When she said jesus shoulda seen it was insane cause  
40 out of 40 never heard of jesus name  
Aw mayne we ain't focused on the war we just kickin it  
Worried bout our image and our space up on the internet Take me out the game coach  
I don't wanna play no mo  
If can't give it all I got and leave it out there on the court  
Thank you for the grace for the will and the desire  
Got me  
Living for your glory stead of living to retire  
But I pray I'll never tire of going hard for messiah  
I don't need no motivation you the reason I'm inspired Go hard  
Go home, go hard  
Go home That's what that is baby  
That what that mean  
That what that mean That what that is baby  
That what that mean  
That what that mean Wha-what that mean? That mean that we, should be out up in ok streets Not just in houses

with our bible's summarizing what we read  
Man this ain't deep (man this ain't deep)  
Why we ain't doing what we read  
It's like we sleep (it's like we sleep)  
But sinners sleepwalk when they sleep  
So why can't we (so why can't we)  
The redeemed of the lord  
Act out, what he said  
And make a scene for the lord  
Action-cut, say what, like we was the director  
But you better get a grip like movie  
sets, and get to stepping  
(martin)  
I know you done it  
Da-done it, da-done-and heard it all  
You was going hard for the lord before you heard this song  
But don't play yourself to save ya self  
And walk in fear  
Scripture's like a mirror  
The truth is closer than it appears
