

Special Girl

ë, i—~ (Noel)

Into each life a little sunlight wants to shine
Let me tell you, fortune life that once was mine
She was a special girl and she meant the world to me
 And I gave her everything
When I found her, I'd been looking everywhere
 And when I lost her, I was lost beyond despair
She was a special girl and she meant the world to me
 And I gave her everything
Dreams are hard to touch, could it be I love her too much

She was a special girl and she meant the world to me
 And I gave her everything
Bottom line is she was fine in everyway
 And it's not with hesitation that I say
She was a special girl and she meant the world to me
 And I gave her everything
 Dreams they come and go
But thoughts like love will always grow
 Special girl
