I Hold It All Inside

Lisa Lisa

( ) denotes back up vocalsI lie awake and hold my broken heart
It aches for every moment were apart
I always wonder where you are and if youre making love to her
I feel like a fool
I wonder if your eyes will ever see
That everything you want is here with me
And time is not an endless flow
Therell come a day when I will go
I love you secretly(Chorus)
I hold it all inside
Cause I dont have the right
To feel the way I do
To be so in love with you
I can only hide the truthI dream about how good my life would be
If you were here to share it all with me
But I could never let you know
Im so afraid that you will go
If you could read my mind(Chorus)
I hold it all inside
Cause I dont have the right
To feel the way I do
To be so in love with you
I can only hide the truthSometimes I look into your eyes
And I wonder if you feel the same inside
But I just smile when all the while
My heart only longs for you(Chorus)
I hold it inside
Cause I dont have the right
To feel the way I do
To be so in love with you
I can only hide the truthI hold it all inside
Cause I dont have the right
To feel the way I do
To be so in love with you
I can only hide the truthI hold it all inside
I hold it all inside
