

# She Said

## Barclay James Harvest

She said, "Why don't you come and stay with me  
Far away from people we know?  
We could live our lives together  
Happiness wherever we go"  
And I will always love her  
And I will always care  
And I will always love her Wasn't long before she grew tired of me  
And the life she thought would redeem  
All the love she'd thrown away as a child  
All the things she thought she had seen And I will always love her  
And I will always care  
And I will always love her And I will always love her  
And I will always care  
And I will always love her
