

# Everywhere I Wanna Be

Billy Ray Cyrus

I like the me, I see in your eyes  
And knowing that I'm the one that makes you smile  
You've given love a name and a face  
Showed me that it can be a beautiful place Everywhere I wanna be in this life  
Is here by your side, baby  
All I ever wanna do is get lost in lovin' you  
Long as you're with me I'm everywhere I wanna be Your breath on my skin is a tropical breeze  
Your kisses send an arctic chill over me  
Why wander the planet, what could I hope to see  
The view when I hold you is amazing to me Everywhere I wanna be in this life  
Is here by your side, baby  
All I ever wanna do is get lost in lovin' you  
Long as you're with me I'm everywhere I wanna be Everywhere I wanna be in this life  
Is here by your side, baby Everywhere I wanna be in this life  
Is here by your side, baby  
All I ever wanna do is get lost in lovin' you  
Long as you're with me I'm everywhere I wanna be  
I wanna be
