# Heart Less

## A Day to Remember

For once my eyes are open to you, and everything youâ€™ve said.
For once your web of lies is in the open.
I gave you everything I had, until I had nothing left.
And Still you act as if Iâ€™m just a burden.
Iâ€™ve finally let go.
Let go
Let go

Stay silent at least for now, and let me move on.
Cause Iâ€™m so done playing these games with my heart
Iâ€™ve been around the world and back for you, and now its time to choose.

Iâ€™ve been swallowed by this wreck that you call your life.
Iâ€™m damaged from the inside. Iâ€™ve been broken.
Donâ€™t threaten me with what you think I feel.
If you could read my mind youâ€™d be in tears.

Iâ€™m sick of your excuses you hold above me.
Iâ€™ve finally come to terms with what I am.
Iâ€™m nothing in your eyes, this will not change.
Iâ€™m living in a dream.

Stay silent at least for now, and let me move on.
Cause Iâ€™m so done playing these games with my heart
Iâ€™ve been around the world and back for you, and now its time to choose.

And Iâ€™ll close my eyes, and Iâ€™ll dream of a better time
when Iâ€™ll finally be past this and I'll be happy on my own.
Iâ€™ve done all I can, still the one to been cast aside.
All I ever wanted to be was be the one whoâ€™d wipe those tears from your eyes.
But I guess Iâ€™ll play second best, to a world that will never care about you.
Youâ€™ll never understand youâ€™re just another pretty face
You tell me that you care, and then you run straight back to him.
I can hear your voice of treason from a mile away.

You never did know how to whisper.(whisper, whisPER!)
You're such a liar. Tell me the truth.
You're such a liar. Tell me the truth.
You fuckin' liar. Tell me the truth.
Do the world a favor stop cutting your arms, and slit your throat
