Hey Katie

Making April

Hey Katie, I saw you in that movie
And I wanted you to do me right through my LCD
And Katie, well I hope that you stay single
By the time we get to mingle, which I hope to do so soon
Cause all I really need to do is get to Hollywood
And once I make it there I'm sure to make you mine for goodAnd maybe if this label guy
Signs my band then I'll be a rock star
And you'll watch me play at an LA bar
Or maybe Starland BallroomAnd our eyes will meet from the crowd
And the music won't seem so loudCause it's just you and I my Katie
Whoa Katie you know I love you in your vinyl and fangs
But I prefer you in more innocent rags
You look so profound when you dress down for me my Katie
And I'll be seeing you in Hollywood
And once I make it there I know we'll hit it off real good(Chorus)And I'll catch your eyes from the stage
And you'll get me lost in your gaze
Cause it's just you and I my Katie
Whoa Katie la la la la la la la la la
I saw you on TMZ with some pretty guy but it was not me so I wiki'd
He's your producer for Underworld IIII guess you're playing me Katie
I thought you might wanna date meWait you're married? why didn't you tell me?Well maybe if I break this song then it won't be long till I'm famous
And you'll pass me by with your sassy strut
And I'll show you just what you've been missing
Cause dammit I'm missing you my Katie
Oh Katie la la la la la la la la la la Katie
