

Fox Is Sick

The Savage Resurrection

I've got this woman
You know I can't tell you her name
I've got this woman
You I can't tell you her name
Sassy women but I
I Love her just the same

Listen woman
You'd better make it here real quick
I can't wait another minute oh baby
You'd better make it here real quick
The fox is sick
This fever's just burning me
It's about to make me all sick

Listen woman
You'd better make it here real quick
I don't wanna wait another minute oh baby
Baby you'd better make it here real quick
The fox is sick
This fever's just burning me
It's about to make me all sick
