# Attacker

## Secret & Whisper

At night we hear you wandering
Gently appearing softly and cautiously
There's glowing particles and flashing burst
But let me tell you that the whispering is worstAnd I say these things because I know the truthIs he attacker or friend?
With a message to send
Or is it just loneliness?
It bothers me and I believe you said
You're jealous that I'm here instead
By and by, could this really happen when we die?
And we hear the sighs of brothers trapped before they realizeIs he attacker or friend?
With a message to send
Or is it just loneliness?
It bothers me and I believe you said
You're jealous that I'm here insteadGently and appearing softly friend
Particles are glowing in spiral dance
Whispering that he'll be back againIs he attacker or friend?
With a message to send
Or is it just loneliness?
It bothers me and I believe you said
You're jealous that I'm here instead
Is he attacker or friend?
With a message to send
Or is it just loneliness?
It bothers me and I believe you said
You're jealous that I'm here instead
