

# Let's Do Something Wrong

**Chuck Prophet**

Let's do something wrong  
Let's do something stupid  
Something we'll regret tonight  
Anything, but the same old nonsense  
Anything, but the same old grind Well I once loved a girl  
She wouldn't love me  
I loved her hard, and I loved her true  
She only lives up the hill above me  
What in the world can a poor boy do? I always did the right thing  
What did it get me?  
I always did the right thing  
What did it get me? Let's do something wrong  
Let's do something stupid  
Let's do something wrong  
Let's do something stupid
