

# Hey Mann

Lizz Wright

Chorus:

Hey Mann

What you doing here I don't remember letting you in

Hey Mann

How'd you get in here you're in my heart without consent

Verse 1:

I always took pride in myself control

To my heart only I had the key

It's something gone wrong with my radar gauge

You slipped by and you captured me

Chorus:

Verse 2:

I done all I could to keep my head clear

Logic tells me that this should never be

But there's no mistaken the shape I'm in

Love has filled my every waking day

Chorus:

Verse 3:

Now here, here's the strangest thing

A day has come I thought I'd never see

I walk smiling in a light calling your name

I lost the battle and I'm quite well please

Chorus:

Hey Mann

What you doing here I don't remember letting you in

Hey Mann

How'd you get in here your in my heart without consent

Hey Mann

What you doing here I don't remember letting you in

Hey Mann

How'd you get in here

Your in my heart...
