

Tell Me

Lucina

If you love me, show I'm not wasting my time
If you need me, tell me what I need to hear before I am gone
So shout it from the street, we'll never forget the time we first met
So tell me the memories together will last, not left in the past Tell me
Tell me
Tell me
Not left in the past
Tell me
Tell me
Tell me Sometime we will have to see
Will this last, is it meant to be
Your head and heart are miles apart
Could it really be me? Every now and then you show
A little love and then it grows
Into something real, something true If you love me take my heart don't give it away
If you need me to get through each and every day
So shout it, shout it out as loud as you can and holding my hand
So tell me that you care, please don't leave me hanging here Tell me
Tell me
Tell me
Me hanging here
Tell me
Tell me
Tell me Sometime we will have to see
Will this last, is it meant to be
Your head and heart are miles apart
Could it really be me? Every now and then you show
A little love and then it grows
Into something real, something true If you love me (you love me, you love me)
If you need me (you need me, you need me) Ohhhhhh Sometime we will have to see
Will this last, is it meant to be
Your head and heart are miles apart
Could it really be me? Every now and then you show
A little love and then it grows
Into something real, something true Something true (you love me)
Something true (could it really be me)
Something true (you need me)
Something true
